About Non-Generally Accepted Accounting Principles (“Non-GAAP”) Financial Measures

To provide a better understanding of the presentation measures of

operating results that are adjusted to exclude wafer shipments from Wuhan Xinxin

Xinxin, which are gradually phasing out in 3Q13. This presentation includes non-GAAP revenue, non-GAAP cost of sales and non-GAAP gross margin. It also includes fourth quarter 2013 guidance for non-GAAP revenues and non-GAAP gross margin, which exclude such shipments, and for non-GAAP operating expenses, which is adjusted to exclude the effect of foreign exchange, employee bonus accrual, funding of R&D contracts from the government and gain from the disposal of living quarters. The presentation of the non-GAAP financial measure is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with IFRS.

SMIC believes that use of these non-

GAAP financial measures to understand, manage and evaluate the Company's business and make financial and operational decisions.

Funding of R&D contracts from the government, which was included as a reduction against the R&D expenses, was \$9.0 million in 3Q13, compared to \$3.0 million in 2Q13. In effect, actual R&D expenses increased \$6.8 million in 3Q13 due to higher R&D activities from quarter to quarter.

General and administrative expenses decreased mainly due to a decrease of **employee bonus accrual in 3Q13**.

Other operating income mainly includes the gain arising from the **disposal of part of the Company-owned living quarters** in Shanghai. This 75.3% decrease from 2Q13 was mainly due to a one-time gain recorded in 2Q13 arising from

Non-GAAP revenue excluding wafer shipments from Wuhan Xinxin

Revenue from wafer shipments from **Wuhan Xinxin** was **\$30.6 million** in 3Q13. The Company began phasing out wafer shipments from Wuhan Xinxin in 3Q13.

2013 Capex Guidance (US\$mm)

- (1) Exclude the effect of foreign exchange, funding of R&D contracts from the government, gain arising from the disposal of living quarters and employee bonus accrual.
- (2) The 2013 planned capital expenditure does not account for additional expenditures for the joint venture company in Beijing, which was established in July 2013. The joint venture company will principally engage in, among other things, the testing, development, design, manufacturing, packaging and sale of integrated circuits.
- (3) In addition, we have budgeted capital expenditures of another \$130 million in 2013 for the construction of living quarters for employees as part of the retention program. We plan to either rent out or sell these living quarter units to employees in the future.
