- **Revenue was \$793.1 million in 1Q17, a decrease of 2.7% QoQ from \$814.8 million in 4Q16 and an increase of 25.0% YoY from \$634.3 million in 1Q16.**
- **Gross profit was \$220.8 million in 1Q17, compared to \$246.0 million in 4Q16 and \$153.8 million in 1Q16.**
- **Gross margin was 27.8% in 1Q17, compared to 30.2% in 4Q16 and 24.2% in 1Q16.**
- **Net profit for the period attributable to SMIC was \$69.8 million in 1Q17, as compared to \$104.0 million in 4Q16 and \$61.4 million in 1Q16.**

Set out below is a copy of the full text of the press release by the Company and its subsidiaries (the "Group") on May 10, 2017, in relation to its unaudited results for the three months ended March 31, 2017.

All currency figures stated in this report are in US Dollars unless stated otherwise.

The consolidated financial information is prepared in accordance with International Financial Reporting Standards ("IFRS") and is presented in accordance with IFRS unless otherwise stated below.

Shanghai, China – May 10, 2017. Semiconductor Manufacturing International Corporation (NYSE: SMI; SEHK: 981) ("SMIC," the "Company," or "our"), one of the leading semiconductor foundries in the world, today announced its consolidated results of operations for the three months ended March 31, 2017.

Second Quarter 2017 Guidance:

The following statements are forward looking statements based on current expectations and involved risks and uncertainties, some of which are set forth under "Safe Harbor Statements" below. The Company expects:

- Revenue to decline by 3% to 6% QoQ.
- Gross margin to range from 25% to 27%.
- Non-GAAP operating expenses, excluding the effect of employee bonus accrual, government funding and gain from the disposal of living quarters, to range from \$178 million to \$184 million.
- Non-controlling interests of our majority-owned subsidiaries to range from positive \$6 million to positive \$8 million (losses to be borne by non-controlling interests).

Dr. Haijun Zhao, SMIC's Chief Executive Officer, commented, "Our team delivered a good quarter with year-on-year growth, improved operating income, and strong EBITDA in Q1 2017. Revenue grew 25.0% year over year, representing a sequential decline of 2.7%. Operating profit grew 17.0% YoY and 57.9% QoQ. EBITDA was a record high of \$312.4 million, an increase of 42.8% YoY and 13.9% QoQ and representing an EBITDA margin of 39.4%.

In the first half of 2017, we are confronting the challenges of customer changes in market positioning, seasonal inventory adjustments, and overall muted handset market growth in China; however, we have actively pursued new incremental revenue from a variety of customers and markets to mitigate the impact of such headwinds. We believe we are in a great position, both strategically and financially to weather this cyclical downturn and are positioned to benefit from some exciting future trends, including automotive, industrial, internet of things, and others.

Our 28nm is ramping up and reached 5.0% of wafer revenue in Q1, representing a growth of 39.0% QoQ. We continue to work with our customers on 28nm new tape outs for a diverse set of applications. 55nm wafer revenue sequentially grew 29.1% YoY and 9.1% QoQ. We continue to ramp 28nm, 55nm and numerous products on 8-inch; and from a device-perspective, we are pursuing growth in areas in which we are seeing meaningful demand such as NOR flash, RF/connectivity, Power IC, and others."

Safe Harbor Statements

(Under the Private Securities Litigation Reform Act of 1995)

This press release contains, in addition to historical information, "forward-looking statements" within the meaning of the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements, including statements under "Second Quarter 2017 Guidance", "CapEx Summary" and the statements contained in the quotes of our CEO are based on

About Non-Generally Accepted Accounting Principles (“Non-GAAP”) Financial Measures

To supplement SMIC’s consolidated financial results presented in accordance with IFRS, SMIC uses in this press release non-GAAP measures of operating results that are adjusted to exclude finance cost, depreciation and amortization, income tax benefits and expenses, the effect of employee bonus accrual, government funding and gain from the disposal of living quarters. This earnings release also includes second quarter 2017 guidance for non-GAAP operating expenses. The presentation of non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with IFRS. This earnings release includes EBITDA, EBITDA margin and non-GAAP operating expenses which consist of total operating expenses as adjusted to exclude the effect of employee bonus accrual, government funding and gain from the disposal of living quarters. These non-GAAP financial measures are not calculated or presented in accordance with, and are not alternatives or substitutes for financial measures prepared in accordance with IFRS, and should be read only in conjunction with the Group’s financial measures prepared in accordance with IFRS. The Group’s non-GAAP financial measures may be different from similarly-titled non-GAAP financial measures used by other companies.

SMIC believes that use of these non-GAAP financial measures facilitates investors’ and management’s comparisons to SMIC’s historical performance. The Group’s management regularly uses these non-GAAP financial measures to understand, manage and evaluate the Group’s business and make financial and operational decisions.

The accompanying table has more information and reconciliations of each non-GAAP financial measure to its most directly comparable GAAP financial measure. A reconciliation of non-GAAP guidance measures to corresponding GAAP measures is not available on a forward-looking basis

- R&D expenses decreased by \$10.5 million QoQ to \$107.8 million in 1Q17, compared to \$118.3 million in 4Q16. Excluding the funding of R&D contracts from the government, R&D expenses decreased by \$19.1 million QoQ to \$121.9 million in 1Q17. The change was mainly due to higher level of R&D activities in 4Q16. Funding of R&D contracts from the government was \$14.1 million in 1Q17, compared to \$22.7 million in 4Q16.
- General and administrative expenses decreased by 35.3% to \$39.4 million in 1Q17, compared to \$60.9 million in 4Q16. The change was mainly due to a decrease in accrued employee bonus in 1Q17.
- The change in other operating loss (income) was mainly due to 1) government funding received in 1Q17 and 2) loss arising from the disposal of equipment in 4Q16.

Share of loss of investment using equity method	(5,371)	(1,413)	280.1%	(5,527)	-2.8%

- The decrease in other gains or losses, net was mainly due to the gain in the fair value recognized in relating to the put option in 4Q16, which was granted by Jiangsu Changjiang Electronics Technology Co., Ltd ("JCET"), to the Group to sell the shares of Suzhou Changjiang Electric Xinke Investment Co., Ltd ("Changjiang Xinke") to JCET, pursuant to an investment exit agreement entered into by SilTech Shanghai (a subsidiary of SMIC), JCET and Jiangsu Xinchao Technology Group Co., Ltd (a substantial shareholder of JCET).
- The change in share of loss of investment using equity method was mainly due to an increase of the loss attributable to Changjiang Xinke.

- (2) Non-GAAP operating expenses are defined as operating expenses adjusted to exclude the effect of employee bonus accrual, government funding and gain from the disposal of living quarters. SMIC reviews non-GAAP operating expenses together with operating expenses to understand, manage and evaluate its business and make financial and operational decisions. The Group also believes it is useful supplemental information for investors and analysts to assess its operating performance. However, the use of non-GAAP financial measures has material limitations as an analytical tool. One of the limitations of using non-GAAP financial measures is that they do not include all items that impact our net profit for the period. In addition, because non-GAAP financial measures are not calculated in the same manner by all companies, they may not be comparable to other similarly titled measures used by other companies. In light of the foregoing limitations, you should not consider the non-GAAP operating expenses in isolation from or as an alternative to operating expenses prepared in accordance with IFRS.

The following table sets forth the reconciliation of the non-GAAP operating expenses to its most directly comparable financial measure presented in accordance with IFRS, for the periods indicated.

- (3) EBITDA is defined as profit for the period excluding the impact of the finance cost, depreciation and amortization, and income tax benefit and expense. EBITDA margin is defined as EBITDA divided by revenue. SMIC uses EBITDA margin as a measure of operating performance; for planning purposes, including the preparation of the Group's annual operating budget; to allocate resources to enhance the financial performance of the Group's business; to evaluate the effectiveness of the Group's business strategies; and in communications with SMIC's board of directors concerning the Group's financial performance. Although EBITDA is widely used by investors to measure a company's operating performance without regard to items, such as net finance cost, income tax benefit and expense and depreciation and amortization that can vary substantially from company to company depending upon their respective financing structures and accounting policies, the book values of their assets, their capital structures and the methods by which their assets were acquired, EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of the Group's results of operations as reported under IFRS. Some of these limitations are: it does not reflect the Group's capital expenditures or future requirements for capital expenditures or other contractual commitments; it does not reflect changes in, or cash requirements for, the Group's working capital needs; it does not reflect finance cost; it does not reflect cash requirements for income taxes; that, although depreciation and amortization are non-cash charges, the assets being depreciated or amortized will often have to be replaced in the future, and these measures do not

reflect any

- (4) For the purpose of hedging against the foreign exchange risk relating to the RMB denominated liabilities including bank loans, short-term notes and medium-term notes, the Group entered into cross currency swap contracts with a term fully matching the repayment schedule of these RMB denominated liabilities. These cross-currency swap contracts were designated as hedging instrument of cash flow hedges since 4Q16. The effective portion of changes in fair value of the cross currency swap contracts is recognized in other comprehensive income, which are reclassified to profit or loss in the period when the RMB denominated liabilities affect profit or loss in response to foreign exchange fluctuation.

- (1) In 1Q17, the amount included \$250.6 million (4Q16: 249.2 million) of net proceeds under three leasing contracts entered into by the Group with Sino IC Leasing (Tianjin) Co., Ltd. (a wholly-owned subsidiary of Sino IC Leasing Co., Ltd, an associate of the Group) in the form of a sale and leaseback transaction with a repurchase option. The subject sold and leased back under the leasing contract is a batch of production equipment of the Group. As the repurchase prices are set at the expected fair value and the Group is not reasonably certain that it will exercise the repurchase options, the above transaction have been accounted for disposal of property, plant and equipment followed with an operating lease.
